Pharmaceutical Formulations and Bioavailability Enhancement Techniques for Transmucosal Drug Delivery

Message from the Guest Editors

Efforts to overcome the limitations imposed by the various physiological barriers of the human body in order to reach enhanced treatment outcomes have been challenging scientists worldwide over the last decades. In this Special Issue of *Pharmaceutics*, authors from both academic and industrial backgrounds are invited to submit original articles for publication. These should report evidence of preclinical (in silico, in vitro or in vivo) and clinical trials, addressing the promising applications of drug delivery systems and permeation enhancement strategies through the buccal, nasal, ocular, rectal, and vaginal mucosa. Systematic reviews and meta-analyses on related subjects in this field will also be considered for publication.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1
(Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
