Transdermal Delivery: Challenges and Opportunities

Message from the Guest Editor

Significant efforts have been devoted to developing strategies to overcome the impermeability of intact human skin, which provides the main barrier for drug penetration. These strategies involve chemical (formulation-based) and physical penetration enhancement techniques. Chemical penetration enhancement methods involve the manipulation of the drug or vehicle in order to enhance the drug diffusion through the skin; this also includes the use of different nanocarriers (e.g., vesicles, nanoparticles, etc.). Among physical methods, iontophoresis, electroporation, and ultrasound are the most studied enhancement methods.

The primary focus of this Special Issue is to address the opportunities and challenges associated with transdermal drug delivery and to demonstrate how various percutaneous penetration enhancement strategies can overcome these challenges, thereby improving the therapeutic efficacy of TDDS.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy,
Rutgers University, Piscataway, NJ 08854, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1
(Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
