Solid Dispersions for Oral Delivery: Materials, Technologies, Characterization, and Translation

Message from the Guest Editors

This Special Issue of *Pharmaceutics*, entitled “Technology and Preparation of Solid Dispersion for the Enhancement of Oral Bioavailability”, aims to highlight both foundational and emerging advancements in the field. It brings together contributions that span formulation design, process technologies, characterization methods, and translational applications. The research presented herein reflects the ongoing evolution of solid dispersion strategies as a cornerstone of modern oral drug delivery. Key themes explored in this Special Issue include the following: Innovative Preparation Methods; Rational Formulation Design; Characterization and Stability; In Vitro and In Vivo Performance; Regulatory and Industrial Perspectives

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.7 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
