

## Special Issue

# Gene Therapy with LNPs, Possibilities, Limitations, New Strategies

### Message from the Guest Editors

In recent years, the utilization of lipidic nanoparticles for gene therapy has been widely investigated after the success of the COVID-19 vaccine. Notwithstanding the incredible opportunities offered by the application of lipid nanoparticles in gene therapy, several issues need to be addressed. In fact, the use of mRNA or siRNA might seem advantageous due to their cytoplasmic target, but these molecules are highly unstable. DNA, on the other hand, exhibits greater stability against formulation stresses; however, it requires nuclear delivery, which poses extensive difficulties. In this Special Issue, we plan to collect research articles and reviews that demonstrate how researchers are addressing the current limitations of gene therapy with LNPs. The scope of this Special Issue includes, but is not limited to, the following:

- Novel LNP formulative strategies;
- Innovations or new insights regarding the lipidic composition of LNPs;
- Analysis of the intracellular trafficking of LNPs;
- Delivery of mRNA, siRNA, pDNA, as well as other genome editing tools such as Cas9;
- Innovative strategies for genome editing;
- Advanced characterization methods for LNP morphology.

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.7 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
