Special Issue

Boosting Cancer Immunotherapy with Nanomedicines: Novel Approaches and Promising Clinical Applications

Message from the Guest Editors

This Special Issue aims to provide an update on the development of injectable and implantable systems for the precise delivery of immune modulators and cytotoxic molecules. The Special Issue will take into consideration the most recent approaches designed for both the systemic and the local delivery of agents targeting cancer cells, the tumor immune microenvironment, or the peripheral immune system. Moreover, the Special Issue is aimed at dissecting the mechanisms of interaction between nanomedicines and the immune system, and the technological and regulatory challenges that could limit the clinical translation of nanomedicine-based immunotherapies. Research areas may include (but are not limited to) the following:

- Systemic targeting of tumors by intravenously administered nanomedicines;
- Devices for the local delivery and sustained release of immunomodulatory drugs;
- Control of immunostimulation and spatio-temporal heterogeneity;
- Radiotherapy and immunotherapy;
- Chemotherapy and immunotherapy;
- Gene therapy and immunotherapy;
- Nanomaterials for immunotherapy.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
