# Cell- and Molecular-Mediated Drug Delivery for Bone and Cartilage Repair

### Message from the Guest Editors

We are pleased to invite you to contribute to this Special Issue on "Cell- and Molecular-Mediated Drug Delivery for Bone and Cartilage Repair". Bone and cartilage injuries represent a significant clinical challenge, remaining a major hurdle in the effective treatment and improvement of patients' clinical outcomes. Cellular and molecular approaches in drug delivery hold tremendous potential to enhance tissue repair, reduce side effects, and improve patient outcomes. Recent advancements in drug delivery systems have revolutionized treatment strategies, offering targeted, efficient, and sustained therapeutic effects. We look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.
