

Special Issue

Pharmaceutical Continuous Manufacturing: Then and Now

Message from the Guest Editor

The pharmaceutical industry is constantly evolving towards more effective and personalized therapies. This industry has tended to innovate slower than other chemical industries, and therefore many of the technologies still operate with conventional batch processes. To remain competitive in the efficiency and constant quality of active pharmaceutical ingredients and end-products, further research is needed on flow manufacturing processes. This Special Issue aims to highlight new research approaches and recent advances in continuous unit operations or in the development of end-to-end systems. Thus, we are pleased to invite you to submit articles covering the different aspects of pharmaceutical continuous manufacturing: synthesis in flow, mixing, powder blending, crystallization, purification (distillation, extraction, washing, etc.), filtration, drying (spray drying, freeze drying, etc.), shaping (milling, granulation, tableting, etc.), on-line control technologies, optimization and modelling of processes, supply chain, etc.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy,
Rutgers University, Piscataway, NJ 08854, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1
(Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
