

Special Issue

3D Printing Technology Applied to the Preparation of Pediatric Orodispersible Dosage Forms

Message from the Guest Editors

This Special Issue serves to highlight and capture the latest research on the 3D printing technology applied to the preparation of pediatric orodispersible dosage forms, which is focused on meeting the need for personalized or industrial medicines to treat this vulnerable population. We invite articles on all 3D technologies that can have an important role in the elaboration of orodispersible formulations, taking into account the fact that the quality of the final product must be guaranteed. It is for this reason that this topic must be supported by quality control strategies, such as process analytical technologies or multivariate statistical process control. Submissions of original research articles and reviews in this rapidly expanding field of research are welcome.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy,
Rutgers University, Piscataway, NJ 08854, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1
(Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
