## Polymer-Based Delivery System

### Message from the Guest Editors

This Special Issue aims to collect a plethora of papers that cover the use of polymers in the pharmaceutical industry for theragnostic applications. In this Special Issue, original research articles and reviews that highlight recent advances and the state of the art in the field of polymers are welcome. Research areas may include (but not limited to) the following: polymer therapeutics, diagnostic tools, targeting delivery, drug combination, bioresponsive carriers, controlled release, stability and bioavailability, and stimuli-responsive materials. We look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1  
(Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
