Special Issue

Nanoparticle-Based Drug Formulation for Enhancing Nose-to-Brain Delivery

Message from the Guest Editors

Nanoparticle-based drug formulations offer a novel and promising approach for direct nose-to-brain delivery, bypassing the blood-brain barrier (BBB), which is a significant obstacle in treating central nervous system (CNS) disorders. This non-invasive method allows for targeted delivery of therapeutics, reducing systemic side effects and improving drug bioavailability in the brain. With advancements in nanotechnology, nanoparticles can be tailored to enhance the absorption, stability, and controlled release of drugs. This Special Issue aims to explore the latest innovations, challenges, and clinical applications of nanoparticles in nose-to-brain drug delivery, highlighting its potential for treating neurodegenerative diseases, brain tumors, and psychiatric disorders.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
