# Stimuli-Responsive Nanoparticles for Pharmaceutical Application in Cancer

# Message from the Guest Editors

Stimuli-responsive nanocarriers for the controlled release of encapsulated cargo represent a powerful tool to minimize the risk of systemic exposure of non-target tissues to drugs, thus avoiding undesired side effects and drug-plasma interactions, and to increase the sitespecific concentration of a drug or of a signalling molecule. The ability of a nanosystem to modify its physicochemical properties in response to external stimuli or environmental conditions, producing a variation in its structure or function, perfectly illustrates the concept of nanostructures as defined by the EMA in the following terms: a system with specific properties that are not obtainable with its isolated individual components, and that confer clinical advantages. This Special Issue's goal is to highlight current progress in the development of anti-tumour therapeutic strategies based on stimuli-responsive nanocarriers. We invite review or original articles on all aspects of "Stimuli-Responsive Nanoparticles for Pharmaceutical Application in Cancer".

# **About the Journal**

# Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

#### Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

#### **Author Benefits**

#### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

#### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
