Targeted Drug Delivery Strategies for Infectious Diseases

Message from the Guest Editors

The development of new treatment options is essential, focusing on therapies that are highly effective, less toxic, and affordable. In this context, a promising approach is the development of drug-specific delivery systems that target the desired site of action, utilizing recent advances in biomaterials, including liposomes, dendrimers, nanotubes, nanoshells, and others. This Special Issue will provide readers with an overview of the current advances in targeted drug delivery strategies for infectious diseases. Research articles and comprehensive reviews are welcome.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy,
Rutgers University, Piscataway, NJ 08854, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
