# Brain Tumors Treatment: Current and Future Challenges from Drug Formulations to Delivery Methods

### Message from the Guest Editors

Drug delivery to the brain remains a substantial challenge in the fight against brain tumors. Most primary brain tumors, in particular high-grade gliomas, continue to be untreatable and therefore, have a dismal prognosis. The presence of the blood–brain barrier, a specialized structure at the microvasculature level that regulates the transport of molecules across the blood vessels into the brain parenchyma, is among the key factors that have made the development of targeted therapies against brain tumors such a difficult task. The main purpose of this Special Issue is to gather original experimental insights or thought-provoking review articles that aim to shed light on the molecular regulation governing blood–brain barrier pathophysiology and its interplay with current treatments for brain tumors and to emphasize the need for new drug delivery techniques and formulations to improve the survival of patients, possibly proposing new avenues for therapeutic approaches for brain tumors.

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.7 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
