

## Special Issue

# Effects of Obesity on Pharmacokinetics

### Message from the Guest Editor

This Special Issue, titled “Effects of Obesity on Pharmacokinetics”, explores the significance of obesity’s impact on drug disposition and metabolism. Obesity is a global health concern, and patients with obesity experience the same diseases as patients without obesity. We typically administer similar drugs and dosages to these patients, no matter their weight, and obesity-specific dosing has only seldomly been studied in controlled trials. Obesity may alter pharmacokinetic parameters, affecting drug efficacy and safety. The objective of this issue is to provide an in-depth understanding of how obesity influences drug absorption, distribution, metabolism, and excretion. By addressing this critical topic, and providing examples for pharmacokinetic studies in patients with obesity, researchers and healthcare professionals can develop more effective pharmacotherapeutic strategies for patients with obesity, ultimately improving treatment outcomes and patient safety.

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.7 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
