Polymeric Materials and Drug Delivery Systems for Dental and Oral Health Applications

Message from the Guest Editors

In the last decade, both new polymer materials and polymer-based systems have been designed for medical and dental applications. Concretely, in dentistry, materials and systems are not only needed in preventive, restorative, regenerative therapies, but also for the treatment of inflammatory and bacterial diseases. Therefore, in this Special Issue, we will focus on new polymer materials and systems with applications in dentistry. Examples of dental applications include the prevention and treatment of dental caries; periodontal diseases and infectious diseases; management and treatment of oro-dental trauma; and oral cancer treatment. We look forward to your contributions.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy,
Rutgers University, Piscataway, NJ 08854, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1
(Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
