Research on the Development of Semi-Solid Pharmaceutical Dosage Forms and Self-Emulsifying Drug Delivery Systems

Message from the Guest Editors

Semi-solid dosage forms offer ease of application, controlled release of active ingredients, and improved patient compliance. The incorporation of self-emulsifying drug delivery systems into semi-solid pharmaceutical dosage forms provides a promising strategy for overcoming the challenges associated with poor drug solubility, bioavailability, and patient compliance.

This Special Issue aims to highlight the current progress in the development of innovative semi-solid dosage forms and self-emulsifying drug delivery systems, regardless of their therapeutic target.

We welcome researchers to contribute original research and review articles focusing on the formulation and investigation of novel semi-solid pharmaceutical dosage forms, including creams, ointments, gels, and transdermal patches, as well as self-emulsifying drug delivery systems.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy,

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
