Drug Formulations Based on Chitosan and Its Derivatives for Therapeutic Applications

Message from the Guest Editors

This Special Issue aims to gather the latest research advancements in chitosan and its derivatives and their biological applications in various areas, emphasizing recent interesting investigations in both fundamental and applied research.

- Synthesis, characterization, and biological evaluation of chitosan and its derivatives;
- Chitosan-based nanoformulation as biomaterials;
- Structure–activity relationship of chitosan and its derivatives;
- Application of chitosan-based materials, including composites, nanoparticles, nanofibers, or hybrid organic materials in biomedicine.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.7 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
