Nucleic-Acid-Based Strategies and Nanotechnology Applications for Targeted Therapy, 2nd Edition

Message from the Guest Editor

Due to the recent attention and growing potential that nucleic acids have gained, together with the demand for improving current controlled-release systems, we are pleased to announce this Special Issue, entitled “Nucleic-Acid-Based Strategies and Nanotechnology Applications for Targeted Therapy, 2nd Edition”. The purpose of this Special Issue is to collate papers reporting on, but not limited to, oligonucleotide synthesis, biochemical and biophysical characterization of nucleic acids, new oligonucleotide-based delivery systems, and biomaterial and polymer development. Articles embracing originality and novelty are welcome to be submitted to this Special Issue. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.
