Advances in Granulation Processes in Pharmaceutical Formulation Systems

Message from the Guest Editors

Pharmaceutics is pleased to present a Special Issue entitled “Advances in Granulation Processes in Pharmaceutical Formulation Systems”. This issue will cover cutting-edge research and new insights into the granulation process, with a focus on process optimization, scale-up challenges, and modelling related to drug formulation. This issue will reveal the current state of granulation technology and perspectives on its future, focusing on the tremendous importance of this particle design process for drug product formulation. We invite researchers from academia and experts from the industry to share their innovations, achievements, and great scientific results related to pharmaceutical granulation.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.7 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
