

Special Issue

Current Research in Drug Metabolism and Drug–Drug Interactions (DDIs)

Message from the Guest Editor

Special Issue entitled “Current Research in Drug Metabolism and Drug–Drug Interactions (DDIs)” will consider for publication manuscripts describing the results of original basic and clinical research that contribute significant and novel information on the following topics: The metabolic studies of important existing drugs or known toxicants that address their potential clinical or translational significance; Novel *in vivo*, *in vitro*, *ex vivo*, or *in silico* model systems for drug metabolism and DDIs, such as 3-D culture, stem cells, and liver-on-a-chip systems; Novel analytical technologies and toolboxes that can be broadly applied to the study of drug metabolism and DDIs; The mechanistic aspects of drug metabolism and DDIs, including the structural studies of formed (reactive) metabolites, enzymes, and transporters and the biochemical studies of nuclear receptors that regulate drug metabolism; The impact of drug metabolism on pharmacokinetics, pharmacodynamics, or drug adverse effects, such as DDIs; The studies of drug metabolism by microbiome or other non-animal species offer new insights into the biological fate of drugs or other xenobiotics in living systems.

Guest Editor

Prof. Dr. György T. Balogh

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.7 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
