

Special Issue

Innovative Dosage Forms for Esophageal Drug Delivery

Message from the Guest Editors

The increasing clinical interest in advanced and innovative delivery systems for targeted therapy of the esophagus is driven by the rising prevalence of several diseases such as esophagitis, GERD, Barrett's esophagus and esophageal cancer in recent years. Addressing this demanding therapeutic challenge requires not only advances in formulation and device development, but also the advancement of modern pharmaceutical processes and technical solutions to enable precise biopharmaceutical causal drug targeting. The development of novel test methods for the pharmacokinetic and pharmacodynamic evaluation of new therapeutic concepts for the esophagus is also of great interest for this issue. As guest editors, we invite researchers to submit their work for the Special Issue of *Pharmaceutics* entitled "Innovative Dosage Forms for Esophageal Drug Delivery", which will address all multidisciplinary approaches that contribute to overcoming the complex challenge of targeted pharmacotherapy in the esophagus. Both research papers and reviews are welcome for publication. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy,

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1
(Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
