# Innovative Drug Delivery Systems for Biologics in the Treatment of Dermatological Diseases

### Message from the Guest Editors

We are delighted to announce a Special Issue on “**Innovative Drug Delivery Systems for Biologics in the Treatment of Dermatological and Rheumatic Diseases**”, in collaboration with *Pharmaceutics* (ISSN 1999-4923, IF 4.9, CiteScore 7.9, Q1 in *Pharmacology and Pharmacy*). Biologic treatments have revolutionized the therapeutic landscape of dermatological and rheumatic disorders, from autoimmune diseases to skin cancer, with spectacular clinical efficacy. These therapies have opened avenues for research into innovative drug delivery systems to enhance effectiveness and improve safety. Modern technologies now enable advanced systems with superior bioavailability, biocompatibility, precision, efficacy, durability, and patient compliance. This Special Issue aims to bring together clinicians and researchers to share their experiences and findings in this dynamic field. We warmly invite original articles or reviews on topics including innovative delivery systems for biologics, advancements in therapies, and their impact on conditions like psoriasis, atopic dermatitis, hidradenitis suppurativa, and skin cancer. We look forward to your contributions!

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.
