

Special Issue

Bioactive Nanomaterials: What Do We Know and What Is Yet to Come in the Pharmaceutical Field?

Message from the Guest Editors

This Special Issue wishes to improve our knowledge of bioactive nanomaterials. Numerous problems arise during the treatment of various diseases; therefore, the application of bioactive materials requires further development. Specific knowledge of the interaction of bioactive nanomaterials and cells, tissues in vivo, proteins, bacteria, viruses and other important biomolecules is still missing. Application of certain nanoparticles or bioactive surfaces can trigger whole sequences of human biomolecules with unpredictable outcomes for patients. This issue will be focused on a multidisciplinary approach to the topic of bioactive materials. In this Special Issue, we aim to discuss the physical, chemical and biomedical aspects of bioactive nanoparticles and surfaces acting mainly against tumors, microbes, viruses as well as implants. The main topics include the development of antitumor, antimicrobial or antiviral bioactive nanoparticles and the mechanisms of interactions between bioactive surfaces and implants/catheters. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy,
Rutgers University, Piscataway, NJ 08854, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1
(Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
