Special Issue

Featured Papers in Biopharmaceutics

Message from the Guest Editor

We are pleased to announce a Special Issue entitled "Feature Papers in *Biopharmaceutics*". This is a collection of important high-quality papers discussing new knowledge or new cutting-edge developments in the biopharmaceutics field, in the hope of making a great contribution to the community. Topic areas include the roles of membrane transporters and receptors in drug delivery and disposition, targeted drug delivery, and the physical and chemical properties drugs and delivery systems as they relate to bioavailability, pharmacokinetics, pharmacokinetics, and toxicology effects. We invite researchers to submit original research articles and reviews in this field. All articles published in this Special Issue are subject to rigorous peer review and editorial selection. We intend for this issue to be the best forum for disseminating excellent research findings as well as sharing innovative ideas in the field.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.
