New Advances in Photosensitizers and Photodynamic Therapy for the Treatment of Infectious Diseases

Message from the Guest Editors

Photodynamic therapy (PDT) and photosensitizers represent promising fields of research that are primarily dedicated to the treatment of cancers but also have potential applications in treating infectious diseases. The encouragement and promotion of scientific research in these domains appears to be of exceptional importance from the perspective of developing more effective anti-infective therapies and realizing the benefits associated with their implementation. This Special Issue on photodynamic therapy aims to provide a comprehensive exploration and dissemination of knowledge, research, and insights in the field of PDT. This edition aims to facilitate a deeper understanding of PDT among a wide readership, fostering collaboration and the exchange of ideas among researchers and professionals in the field. It serves as a platform to showcase the latest advances, innovative approaches, and emerging trends in photodynamic therapy, ultimately contributing to the advancement of this therapeutic modality.

Guest Editors

Dr. Dorota Kowalczyk

Department of Medicinal Chemistry, Faculty of Pharmacy, Medical University of Lublin, 20-090 Lublin, Poland

Prof. Dr. Joanna Bartosińska

1. Department of Dermatology, Venerology and Pediatric Dermatology, Medical University of Lublin, 20-081 Lublin, Poland

2. Department of Cosmetology and Aesthetic Medicine, Medical University of Lublin, 20-093 Lublin, Poland

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy,
Rutgers University, Piscataway, NJ 08854, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
