Novel Drug Delivery Systems for Natural Extracts

Message from the Guest Editor

We are looking for high-quality research articles, reviews, and case studies that contribute to the development of novel drug delivery systems incorporating natural extracts. Topics of interest include, but are not limited to, the identification and characterization of active compounds, the design and optimization of delivery systems (such as nanoparticles, liposomes, or hydrogels), pharmacokinetic studies, drug release behavior analysis, stability analysis, and the evaluation of efficacy and safety in animal models and clinical studies. Contributions exploring interdisciplinary research involving engineering, biomedical sciences, and cell biology in the context of natural extract drug delivery are particularly welcome. We await your innovative contributions.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1
(Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
