

## Special Issue

# Studies on the Cytotoxicity and Antimicrobial Effects of Synthetic and Natural Compounds

### Message from the Guest Editors

Organisms such as microorganisms, fungi, and animals (including insects) can supply us with valuable, biologically active products. A majority of contemporary studies on the biological activity of natural products are devoted to the search for natural compounds, particularly those demonstrating anticancer and antimicrobial effects.

Natural products still present a major source of new drug molecules. Plants and other natural sources can provide a huge range of complex and structurally diverse compounds. Many researchers have therefore focused on the investigation of plant extracts, microbial products, and new synthesized molecules as potential antimicrobial and antiproliferative agents. Many molecules of natural origin act as starting compounds for the synthesis of new molecules with antimicrobial or cytotoxic effects.

This Special Issue looks to collect original research articles and review articles addressing recent advances in the investigation of antimicrobial and/or cytotoxicity effects of synthetic and natural compounds.

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Patrick J. Sinko  
Department of Pharmaceutics, Ernest Mario School of Pharmacy,  
Rutgers University, Piscataway, NJ 08854, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1  
(Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
