Novel Drug Delivery Systems for the Treatment of Skin Disorders

Message from the Guest Editors

The field of dermatology has achieved significant advancements with the advent of novel drug delivery systems that offer more effective treatments for skin disorders. These systems harness nanotechnology, such as nanoparticles, microemulsions, nanoemulsions, solid lipid nanoparticles (SLNs), microsponges, nanosponges, vesicular systems (liposomes, ethosomes, and niosomes), and 3D printing technologies, which enhances the penetration and permeation of therapeutic agents through the skin's protective barrier, enabling more targeted and potent treatments. In summary, these innovative drug delivery systems hold promise for more effective and safe therapies, optimizing the management of skin disorders in dermatology. In this Special Issue, original research articles and reviews are welcome to be submitted. We look forward to receiving your contributions. In summary, these innovative drug delivery systems hold promise for more effective and safe therapies, optimizing the management of skin disorders in dermatology. In this Special Issue, original research articles and reviews are welcome to be submitted.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
