Lipid-Based Dosage Form

Message from the Guest Editors

Excipients based on lipid materials have attracted considerable interest in the design of dosage forms. Lipids are often low-melting-point materials and poorly water-wettable too. Hence, they are amendable to several manufacturing technologies and are used in several types of dosage forms. This Special Issue hopes to present novel innovations in lipid-based dosage forms and applications involving lipids in manufacturing processes. Research on various technologies to produce lipid-based dosage forms are welcome. We look forward to your submission for this Special Issue. Best regards, Prof. Dr. Paul W S Heng

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
