Emerging Strategies in Drug Development and Clinical Care in the Era of Personalized and Precision Medicine, 2nd Edition

Message from the Guest Editors

The aim of this Special Issue on “Emerging strategies in drug development and clinical care in the era of personalised and precision medicine” is to unify the most relevant papers addressing the state-of-the-art knowledge and future directions in drug development, therapeutic strategies, and innovative drug formulations, with a focus on biochemical mechanisms of action and drug design, as well as the relevant preclinical and clinical testing of efficacy, pharmacokinetics and toxicity in the era of precision and personalised medicine. We welcome articles dealing with all aspects of pharmaceutical and medical care, from basic to clinical research, and invite scientists and drug specialists to publish their original research works, review articles, and communications on this wide health domain.
