

## Special Issue

# Advances in Delivery Systems for Antidiabetic Drugs and Beyond Glycaemic Control

### Message from the Guest Editors

Diabetes is a serious endocrinological disease that affects many body organs. This Special Issue is aiming to highlight the drug delivery systems, platforms and devices for antidiabetic therapeutics. This issue covers but is not limited to the following:

- Pharmaceutical scaffolds for targeted drug delivery of antidiabetics.
- Implantable devices, inserts and transdermal patches of antidiabetics.
- Injectable, rectal, sublingual and other pharmaceutical routes that bypass hepatic metabolism of antidiabetics.
- Micro/nanoscale biomaterials and biodegradable polymers employed in antidiabetic delivery.
- Formulation approaches of antidiabetics such as pH-responsive systems and 3D printing.
- Functionalised polymers/biopolymers, self-assembly and electrospinning approaches of antidiabetics.
- Pharmaceutical coatings for site specific anti-diabetic release.
- AI in pharmaceutical design and optimisation of the delivery and the pharmacokinetics of antidiabetics.
- Pharmaceutical technologies for optimised pharmacokinetics of antidiabetics.
- Therapeutic applications and novel findings of old antidiabetic agents beyond the glycaemic effects.

### Guest Editors

Dr. Ahmed Gedawy

1. Curtin Medical School, Curtin University, Bentley 6102, Australia
2. Curtin Health Innovation Research Institute, Curtin University, Bentley Campus, Bldg 305, Room 124, Bentley 6102, Australia

Prof. Dr. Crispin R. Dass

1. Curtin Medical School, Curtin University, Bentley 6102, Australia
2. Curtin Health Innovation Research Institute, Curtin University, Bentley Campus, Bldg 305, Room 124, Bentley 6102, Australia
3. Faculty of Pharmacy, Silpakorn University, Nakhon Pathom 73000, Thailand

### Deadline for manuscript submissions

31 January 2026

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Patrick J. Sinko  
Department of Pharmaceutics, Ernest Mario School of Pharmacy,  
Rutgers University, Piscataway, NJ 08854, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
