

Special Issue

Quality by Design in Pharmaceuticals

Message from the Guest Editors

Statistical approaches using efficient experiment designs are often used to optimize and expedite pharmaceutical product development, an otherwise time-consuming process. Furthermore, the current approach to enhancing rather than testing product quality is useful at multiple levels. This themed issue will consider manuscripts in all areas of product development, including drug design, processes, formulation and product optimization, as well as quality control, in which a quality-by-design approach is at the forefront of the research.

Guest Editors

Dr. Vincent J Smith

Prof. Dr. Roderick B. Walker

Dr. Jie Shen

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy,
Rutgers University, Piscataway, NJ 08854, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1
(Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
