

Special Issue

Peptides-Based Antiviral Agents

Message from the Guest Editors

We are pleased to invite you to submit a manuscript to the Special Issue “Peptide-Based Antiviral Agents”. Viral infections represent one of the most important health issues worldwide. This Special Issue is focused on the search for new chemical entities, starting from both natural and synthetic compounds and addressing different targets. This Special Issue of *Pharmaceutics* will also cover research on the mechanisms of drug susceptibility and viral resistance, offering perspectives on the future directions of antiviral agents. This Special Issue will pay attention to antiviral peptides that can be considered ‘new’ antiviral drugs. Original research articles and reviews are welcome for submission. I look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1
(Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
