Special Issue

Novel Drug Delivery Systems: Magnetic Gels

Message from the Guest Editor

The lack of specificity in relation to drug delivery systems tends to result in inefficient therapeutic effectiveness and potentiates their possibly avoidable side effects. This is especially true in therapeutics such as chemotherapy where the side effects may lead to substantial suffering and greatly reduce survival rates. The combination of hydrogels and functionalized magnetic nanoparticles into a single magnetic gel represents a truly promising approach to tackle the limitations of current drug delivery systems. The magnetic gels also present a huge multifunctional potential that does not only provide answers to several limitations of drug delivery, but also allows synergy with other therapeutics (such as magnetic hyperthermia) and enables simultaneous treatment diagnosis using a theranostics mindset. In this Special Issue, authors are invited to submit their original research articles, reviews. or short communications which focus on the use of magnetic gels as novel drug delivery systems.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
