

## Special Issue

# Novel Insights in Delivery Systems: Phytochemicals and Biopharmaceuticals

### Message from the Guest Editors

Given the current global situation, biopharmaceuticals and functional phytochemicals have gained significant relevance in healthcare. The advances in delivery systems in terms of nanotechnologies and clinical testing strategies are being analyzed in order to address the current need for efficient and safer biopharmaceuticals. The aim of this Special Issue is to cover various aspects of delivery systems, from design to applications, in the biopharmaceutical industry. We especially invite articles that cover the uses of biomaterials and the development of nanotechnological strategies applied in delivery systems for medical applications, including biopharmaceutics and phytochemicals with potential use in healthcare systems. Special emphasis is placed on the assessment of drug-delivery system bioavailability by biological validation via biological models such as in vitro, in vivo or clinical testing. We also extend a special invitation to those researchers that have analyzed physiological barriers and selective transport mechanisms in order to evaluate the toxicity, selectivity or optimal concentrations of delivery systems to minimize the systemic side effects.

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Patrick J. Sinko  
Department of Pharmaceutics, Ernest Mario School of Pharmacy,  
Rutgers University, Piscataway, NJ 08854, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1  
(Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
