Protein Nanoparticles: A Novel Approach to Targeted Drug Delivery

Message from the Guest Editor

Protein nanoparticles are attractive candidates for drug delivery systems. Protein nanoparticles have several advantages, such as biocompatibility, bioavailability, biodegradability, and specificity, due to the innate properties of proteins. Additionally, the nanoparticle properties enhance blood half-life, the solubility of the cargo, cellular uptake, and controlled drug release. These benefits demonstrate that protein nanoparticles are a promising next-generation drug delivery platform in various medical fields.

This Special Issue aims to collect original research articles and reviews on recent applications of protein nanoparticles in the pharmaceutical field. We welcome papers on drug delivery systems utilizing a wide range of protein nanoparticles, as well as papers on newly developed or discovered protein nanoparticles and their applications. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy,
Rutgers University, Piscataway, NJ 08854, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
