Dosage Form Design and Delivery Therapy for Skin Disorders

Message from the Guest Editors

Skin disorders affect millions of individuals globally, presenting a significant challenge in dermatological therapy. The design of dosage forms and advanced drug delivery systems are crucial for enhancing the efficacy, safety, and patient compliance of dermatological treatments. In this Special Issue, original research articles and reviews focusing on the design and development of dosage forms and drug delivery systems for managing skin disorders are welcome, as well as the following: contributions that cover a broad range of topics within this theme—including dosage forms such as emulsions, creams, hydrogels, polymeric films, and nano-based formulations tailored specifically for skin applications; advanced drug delivery systems, particularly those designed to enhance drug penetration, retention, and targeted delivery to affected skin areas; and formulations incorporating natural ingredients, which are of interest due to their therapeutic potential and biocompatibility. Mechanistic studies that elucidate the mechanisms of drug action, skin absorption, and the interaction of formulations with skin tissues are also welcome.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.7 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
