# Research on the Design and Development of Anti-Tumor Drug Delivery Vehicles

### Message from the Guest Editor

Cancer remains a major global health challenge, and the development of effective drug delivery systems is crucial for improving patient outcomes. This Pharmaceutics Special Issue aims to showcase the latest research on anti-tumor drug delivery vehicle development, gathering a collection of high-quality original research and review articles which will advance the field and provide valuable insights for researchers and clinicians. The research areas may include (but are not limited to) the following: nanoparticle-based drug delivery, targeted therapy, drug efficacy evaluation, and drug delivery system optimization.
