# The Role of Free Radicals and Antioxidants in Drug Activation and Effectiveness in Different Biological Systems

## Message from the Guest Editors

Oxidative stress is the result of a disequilibrium in oxidants/antioxidants which results from the continuous increase in the production of reactive oxygen species (ROS) under stress conditions (inflammation, etc.). Remarkable interest has arisen in the idea that oxidative stress and specific free radicals are able to control drug activation and, in some cases, their effectiveness too. The aim of this Special Issue is to gather the latest studies which explore oxidative stress biomarkers (ROS, RNS, free radicals, antioxidants) in cell interactions (human/animal cells, bacteria, parasites) with potential compounds (drugs/edible oils) alone or encapsulated in nanomaterials (nanodrugs) for different biological applications.

## **About the Journal**

## Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

#### Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, New Jersey 08854-8020, USA

## **Author Benefits**

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

## **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
