New Platform for Tuberculosis Treatment

Message from the Guest Editors

This Special Issue, entitled "New Platform for Tuberculosis Treatment", aims to explore and discuss the latest advancements in the development of novel drug delivery systems and formulations for the treatment of tuberculosis (TB). TB is a major global health problem, and the need for more effective and safer anti-TB drugs is urgent. Traditional treatment regimens are lengthy and associated with severe side effects, leading to poor patient compliance and the emergence of drug-resistant TB strains. The main objective of this Special Issue is to provide a platform for researchers and scientists to share their findings and insights on the development of new drug delivery systems and formulations for anti-TB drugs. It will cover topics such as the design and development of novel drug carriers, the use of nanotechnology in drug delivery, and the enhancement of drug bioavailability and targeting.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy,
Rutgers University, Piscataway, NJ 08854, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1
(Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
