Advances in Formulation of Nanocarriers for Overcoming Biological Barriers

Message from the Guest Editor

Nanocarriers have shown a considerable advantage in increasing the biological performance of drugs, revolutionizing nanomedicine. For their application, nanocarriers should be transported by the human body, overcoming physiological barriers, such as mucosal, epithelial, or intracellular, to achieve precision drug delivery. To design nanocarriers we should consider not only physiological barriers but also the pathological state, which restructures tissue properties, such as inflammation or the tumor microenvironment, demanding new strategies for drug targeting in this modified biophase. Therefore, in this Special Issue, we plan to collect the latest advances in new nanocarriers, aiming to overcome the physiological/pathological barriers and to describe their formulation, pharmacokinetics, toxicology, and biological targets.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.7 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
