

## Special Issue

# Advances in Age Related Drug Delivery

### Message from the Guest Editors

Age-related drug delivery is very important in drug development. Both drug delivery performance and various age-related physical, mental and physiological changes can affect drug effectiveness and safety in paediatric and geriatric patients. This Special Issue aims to introduce novel drug delivery strategies in paediatric and geriatric patients, such as novel transdermal, nasal, pulmonary and orally dosage forms that provide consistent, precise, timely and more targeted drug delivery. We invite original research articles and reviews on all aspects of age-related drug delivery highlighting the research currently undertaken in the field of paediatric and geriatric drugs for this Special Issue. We look forward to receiving your contributions.

Dr. Aida Loshaj Shala

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
