Inorganic Nanoparticles for Cancer Immunotherapy and Diagnosis

Message from the Guest Editor

The application of nanomaterials has enormously contributed to the technical advances in various biomedical fields. This Special Issue is focused on advanced platforms and technologies using inorganic nanomaterials for cancer immunotherapy and in vivo imaging to achieve enhanced therapeutic outcomes and diagnostic monitoring. Recent advances in nanotechnologies based on inorganic metals, carbon nanostructures, or others could be covered by the Special Issue. We believe your contribution, based on your expertise, would be a valuable addition to our collection.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.
