Special Issue

Application of Nano- and Biomaterials in Cell-Based Therapy

Message from the Guest Editors

Cell therapy strategies hold great promise for regenerative medicine and cancer immunotherapy. Their combination with materials science has brought a plethora of scientific advances in recent years. From the development of scaffolding materials for tissue regeneration in bone, cartilage, tendons tissue, and nerve tissue engineering, to the exploitation of cell migration properties to deliver drug-loaded nanoparticles for cancer therapy, the possibilities of this type of combinations appear to be almost endless. We invite scientists to contribute original research articles or review articles that are related to the combination of nano- and biomaterials with cells for therapeutic purposes. Potential topics include, but are not limited to:

- 3D scaffolds seeded with cells for regenerative medicine
- Nanoparticle delivery strategies based on living nanoparticle carriers
- Nanoparticle-mediated non-viral genetic engineering of therapeutic cells
- Cell-carrying biomaterials for immune engineering
- Biological effects of nanomaterials on cells for regenerative medicine applications

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
