Challenges and Perspectives of Drug Transporters: Where Do We Go from Here?

Message from the Guest Editor

During the last decades, drug transporters have been identified as important determinants of the pharmacokinetics and, in turn, the pharmacodynamics of many drugs. Prominent and well-characterized examples in this regard are P-gp, BCRP, OATP1B1, and OATs, mediating the uptake or efflux of drugs and/or their metabolites in intestine, liver, and kidney. Consequently, drug transporters for new molecular entities have to be considered in today's drug development programs, according to recent guidelines from the medical authorities. However, our current knowledge is still limited to some 20–30 transporters, whereas we know today about 50 ABC and 400 SLC transporters. Thus, additional knowledge about the physiological and pharmacological roles of the remaining transporter proteins is needed. This Special Issue aims to address some of the aforementioned open questions related to drug transporters.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
