Clay-Based Pharmaceutical Formulations and Drug Delivery Systems

Message from the Guest Editor

The use of minerals as ingredients of health care products is a classical and active pharmaceutical subject. Clays, but also zeolites and other silica-based mesoporous inorganic ingredients, have been traditionally used as pharmaceutical and cosmetic ingredients. These inorganic ingredients should be able to be used as ingredients of health care products in accordance with quality and safety standards. Recently, new and advanced applications of these materials have been proposed, including design of modified drug delivery systems and other advanced applications (such as wound healing formulations and tissue engineering scaffolds). The aim of this Special Issue is to highlight the most recent advances in all aspects relevant to clay-based formulations and clay-based drug delivery systems. Natural, modified, and synthetic clays with interest in nanomedicine and pharmaceuticals will be considered in this Special Issue.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy,
Rutgers University, Piscataway, NJ 08854, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1
(Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
