

## Special Issue

# Smart Nanocarriers for Drug Delivery in Colon Cancer

### Message from the Guest Editors

Despite advances in the diagnosis and treatment of colorectal cancer, its incidence is increasing at an alarming rate, and it is currently the third most common cause of cancer-related death worldwide. As with most solid tumors, one of the most challenging issues in colon cancer therapy is associated with the severe side toxicity of chemotherapeutic drugs. Thus, there is an urgent need to reproducibly develop effective targeted nanocarriers capable of preventing drug adsorption and degradation in the upper gastrointestinal tract, and thus capable of transporting chemotherapeutic drugs to the colon. This Special Issue aims to collect recent trends in the field of colon cancer therapy related to the use of nanocarriers capable of promoting active targeting in the tumor microenvironment. Thus, we welcome articles on the development, characterization and validation of liposomes, nanoparticles, nanohydrogels and nanocomposites conjugated with selective targeting molecules and/or stimuli-responsive, designed to improve the main drawbacks of traditional chemotherapy.

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1  
(Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
