

Special Issue

Applications of Crystal Engineering in Drug Delivery

Message from the Guest Editor

Manuscripts are invited for publication in a Special Issue of *Pharmaceutics* entitled "Applications of Crystal Engineering in Drug Delivery". This SI is focused on the use of crystal engineering methods to improve drug properties such as solubility and dissolution rate for optimum drug delivery. Crystal engineering is a broad area of research that included crystal habit modification, polymorphism, solid dispersions, and salt formation. All these pre-formulation and formulation techniques entail that the drug can be modified using methods such as solvent evaporation or dry methods such as mechanochemical activation.

Drug delivery applications include various routes, such as oral, pulmonary, ophthalmic, buccal, vaginal, transdermal, and parenteral drug delivery. Recent advances in this area of research have shown potential application of these techniques to use crystal engineering to achieve targeted drug delivery for novel molecules such as anticancer drugs, antimicrobials, and vaccines.

Guest Editor

Dr. Hisham Al-Obaidi

The School of Pharmacy, University of Reading, Reading RG6 6AD, UK

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy,
Rutgers University, Piscataway, NJ 08854, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1
(Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
