# Novel Approaches for Delivery of Anti-HIV Drugs

## Message from the Guest Editor

HIV/AIDS is one of the most challenging public health concerns nowadays, affecting roughly 37 million individuals worldwide and killing nearly two million people each year according to the UNAIDS. Investments in the field have been huge but a cure to the infection remains elusive. Many challenges remain in anti-HIV therapy/prophylaxis and these include, among others: (i) severe adverse effects; (ii) sub-optimal biodistribution and pharmacokinetics, particularly at reservoir sites or mucosae involved in sexual transmission; (iii) viral resistance; (iv) poor adherence due to troublesome regimens and/or drug delivery routes; (v) low stability/reduced shelf-life; (vi) lack of dosage forms for particular populations (e.g. children, women); (vii) costly drugs. This Special Issue focuses on new strategies to the formulation and delivery of anti-HIV drugs (including genetic material and other biopharmaceuticals), which could help solving above identified issues. We welcome articles/reviews on all aspects of anti-HIV drug delivery targeting HIV/AIDS.

# **About the Journal**

## Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

#### Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

#### **Author Benefits**

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
