Depot Delivery Systems: Recent Advances on Materials, Technologies, and Beyond

Message from the Guest Editor

By direct deposition of the drug at the site of action, depot delivery systems enable to limit the immediate exposure of the active principle at a systemic level and to reduce the frequency of administration. A reliable, steady, and prolonged drug release achieved with a non-invasive biocompatible system that can be conveniently produced and administered is an appealing solution to address various unmet clinical needs.

This Special Issue has the aim of highlighting current progress in the development of depot delivery systems with a particular attention to new technologies and new materials. Investigations on local tissue response to injections as well as studies on prototypes presenting a strong clinical potential will be also warmly welcomed.

Keywords

- depot
- sustained release
- long acting injectables
- in situ forming implants
- controlled release injectables

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy,
Rutgers University, Piscataway, NJ 08854, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1
(Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
